

CUSTOM ALUMINUM RAILING

Whether you are looking to add a small seating in front of your restaurant or update your current patio railing. Our custom built aluminum railings are a low-maintenance, rust free option. Choose from some of our best selling designs, or work directly with our highly-skilled welding engineer to create a unique design that fits perfectly within your space.

Lightweight, fully aluminum

Long lasting, durable, and completely rust resistant.

Powder Coated finish – Standard RAL color selection, custom color/texture available upon request.
